Expedition by Gen. Lawton are  
Missing—Gen. Lawton Praises the  
Fortitude and Endurance of His  
Troops.

Washington, Nov. 18.—[Special Cablegram]—Gen. Otis cabled the war department this morning as follows:  
"Gen. MacArthur entered Gerona yesterday and pushed his advance to Panique a few miles beyond. The inhabitants remained in their houses receiving the troops hospitably, this being the first instance during the entire advance from San Fernando. Reinforcements and supplies leave here today for San Fabian, Gen. Wheaton's headquarters. The indications are that the insurgent troops are widely scattered and are retreating into the western Luzon province of Sambales."

## Skirmish With the Enemy

A second cable from Gen. Otis this morning says:  
"I have just received a dispatch from Gen. Lawton on the road between San Nicholas and San Manuel. Gen. Lawton reports that Maj. Ballanco has had several skirmishes with the enemy, driving them northwestward and capturing prisoners, guns and a large amount of property. The troops have subsistence on the country and are cordially received by the inhabitants. It would appear that the insurgents are being driven off the road leading to Bayombong, their mountain capital."

"Gen. Lawton reports that Lieutenant Luna, his aide, and two men of his escort were drowned crossing the Agno river. He also reports the missing of Lieut. Thayer and ten men sent to communicate with Gen. Wheaton. Gen. Lawton says he must again refer to the fortitude and cheerfulness of his command. Gen. ## GENERAL DEMAND BY LABOR.

Higher Wages Will Be Asked For Early Next Year.

Indianapolis, Ind., Nov. 18.—A conference in this city between President Samuel Gompers of the American Federation of Labor, President John Mitchell of the United Mine Workers, and President S. B. Donnelly of the International Typographical union, leads to the announcement that the labor organizations are planning to make early next year a general demand for increase of wages. The mine workers' convention in this city in January and the federation conference in Detroit next month, it is said, will take steps to enforce these demands.

"The next twelve months will see some mighty changes," said one of the officers. "We are not making threats—we are simply warning employers. Union labor is now in a position to demand what it wants, and, if we can control the men, we will wait to see what is offered us."

Mr. Gompers refused to outline the matters to come before the Detroit conference, but said they are of the gravest significance.

Milwaukee Operatives Will Insist on an Increase of Wages.

Milwaukee, Wis., Nov. 18.—The working tanners employed in this city held a meeting last night and agreed to strike Monday morning if their demand for a 10 per cent increase in wages was not allowed. The tannery workers have, no union, but 3,000 are employed, principally by Pfister and Vogel, the Zohrlaut Leather Company, William Becker and Trostel & Gallun. These four firms are the largest in the tanning business in this country and any strike here will undoubtedly affect the tanners all over America.

port that he might be a candidate for the Republican nomination for governor in Wisconsin again is true, he said, "No sir; why should I? I had the cup in my hands once and refused it, and my business needs my attention now."

Regarding the plight of Wisconsin democracy, he remarked that "it has no field in which to sow its crop." He said that so many candidates for the governorship are being brought out that it is impossible to pick out a probable winner.

He is not sure that Governor Scofield will not be a candidate, despite all that has been said. He declared that former Senator Philletus Sawyer of Oshkosh is in good health since the operation he submitted to in Chicago last summer and would probably take an interest in Wisconsin politics again.

## FORECAST OF WEATHER

Chicago, Nov. 18.—[Special Telegram]—The forecast for Wisconsin is as follows:  
Fair tonight and Sunday.

## BONDS OFFERED GOVERNMENT

Over Two and a Half Millions Were Presented Yesterday.

Washington, D. C., Nov. 18.—The bonds offered to the government today at the several subtreasuries under Secretary Gage's offer of last Tuesday amounted to \$2,538,855.

New York, Nov. 18.—Russell Sage is quoted today as saying to a newspaper man who asked him what he thought of the United States Treasury offer to buy \$25,000,000 of bonds:

"I believe Secretary Gage's action has saved the financial world from a disastrous panic. No one who has been in touch with business enterprises during the last few months can fail to have realized the stringency of the money market. Ready money appeared to be extraordinarily scarce, and those who had it held it or demanded the highest class securities before they let go."

## FRATERNAL ORDERS EXEMPT

Commissioner Wilson's Important Ruling on Policy Taxation.

Washington, Nov. 18.—Commissioner Wilson of the internal revenue bureau has rendered an important decision in which he holds in effect that the policies of life insurance companies which are exempt from taxation under the war revenue act are only such as are issued by fraternal societies or orders, beneficiary societies or orders, farmers' purely local co-operative associations, and employers' relief associations operated on the lodge system, or local co-operative plan, and that the exemption does not apply to the policies of life insurance issued by mutual insurance companies per se, although they may have features of mutuality.

## YOUNG LADIES COME IN FOR SOME BLAME

PRESIDENT ADAMS' SORROW  
OVER RECENT ESCAPE.

Dean Johnson Talks on English Secondary Education—Prominent Part Played by a Janesville Girl at Madison—The Gazette's University Gossip Letter.

Madison, Wis., Nov. 18.—At the weekly assembly of students Pres. Adams opened the exercises with a few remarks regarding the recent action of the faculty toward those participating in the unfortunate escape of Halloween. In a manner and tone portraying the deep humiliation and sorrow which he felt he told of the policy of his administration. He believed that the life and power of all democratic form of government was in public opinion. That the University should be governed by such and that he was gratified because it had been. That lately he had noticed the marks of vandalism on some of the public property of the University and a spirit of lawlessness and shamelessness among the students. That it had been the duty of the faculty to mete out punishment to some and he pleaded in this hour of humiliation for more evidence of personal honor among the students.

Ladies Not Entirely Blameless  
Continuing he referred to the Halloween party of the girls and said that considering all he had been able to find out the young ladies were not entirely blameless for what took place. That in his opinion if a young lady wanted to masquerade in male attire she had better stay in her own room and not parade in public. That the affair was a very serious one and it would be some time before the University recovered from its effects.

Dean Johnson of the Engineering school then gave a short but very interesting talk on the system of Secondary Education in England. He said there were no public schools provided and the schools were privately endowed. That most of them derived their support from the income from land which had greatly depreciated in value. That the teacher in these schools unfit for such, and were merely accented by the pecuniary prospects; that the class of children attending were of the poorest, and because of class prejudice the great mass of children of the middle classes were growing up in ignorance; that in his opinion England would decrease in all material wealth within the life of this generation simply because of her lack of educational institutions among the middle class and the aversion of this class to a broader idea of education.

Miss Marcia Jackman of Janesville, has occupied a very prominent place as president of the Woman's Self Government association. This is the body governing all the women of the university in matters not touched by the faculty; and it was this association which declared the boycott against the men. Miss Jackman has been one of those who most strongly advocated this boycott policy which was very strongly opposed by some of the young ladies, and in the opinion of many did not prove a success.

## Thanksgiving Day Football

The football team expect an easy victory over Minnesota, and so will not put forth their very best efforts, with this view, saving all extra strength for Michigan on Thanksgiving day. Extra efforts are to be put forth to have a large crowd of rooters attend the game, which will be played in Chicago, and beyond all doubt this will be the greatest game in the west this year. Manager Fisher of Janesville, is having his hands full, these days, making the necessary arrangements.

The Senior class is already making arrangements for commencement exercises next June. The Senior class in the Law school are corresponding with a view of securing one of the justices of the United States supreme court to deliver the annual address before the college. At present Justice Brewer is in mind, although a change may be made.

## Cabinet Meeting Is Brief.

Washington, Nov. 18.—The cabinet meeting Friday was brief and unimportant. General satisfaction was expressed with the result of Secretary Gage's invitation for the purchase of bonds. Most of the time was taken up in the discussion of plans of the exhibit of Porto Rico and Cuba at the Paris exposition. The secretary of agriculture outlined his plans for extending the work of his department to Porto Rico, Hawaii and the Philippine islands. He spoke of the possibilities of the rubber industry and thought that the climatic and soil conditions in Porto Rico should make it as favorable for the growth of the rubber tree as Central and South American countries.

## MR. MOODY HAS TO GIVE UP HIS WORK

EVANGELIST IS TAKEN VERY  
SICK AT KANSAS CITY.

Friends Interfere and He is Now on the Road to His New England Home—Probability That His Life Work Has Been Concluded—Denies that He Will Give Up.

Kansas City, Nov. 18.—It is feared by his friends here that Dwight L. Moody, the famous evangelist, has done his last active work. He has heart disease and has been perceptibly failing for a long time, and yesterday in the midst of a most successful week of revivals at Convention hall he was forced to quit and go home.

He started last night for Northfield, Mass., in a special car over the Wabash, in charge of Dr. Shaffler and C. W. Vining, the latter and old friend of the Moody family. Dr. Shaffler declares that Mr. Moody's condition is not serious, but the evangelist's friends do not share in this hopeful view. "I shall not be in the least surprised," said one of them tonight, who has been much with Mr. Moody since he came to Kansas City, "if he does not reach Northfield alive."

DWIGHT L. MOODY.

Think His Work Is Ended.  
Others do not fear so near an ending, but all are of the opinion that Mr. Moody's active life work is done.

Mr. Moody has had a very hard week in Kansas City, speaking afternoon and evening in Convention hall, the largest auditorium in the west, to audiences that packed it from arena floor to roof garden. All of the time he has had much trouble with his heart, and for the last few nights has been unable to sleep. Several nights ago he sat up most of the night; he could not breathe while lying down.

"I am feeling very weak and don't believe I will be able to preach tonight," he said. "I may make up my mind to do so at the last moment. I have had trouble with my heart for a good many years, but I never felt as weak as I do now. There is nothing alarming about my condition, I believe."

St. Louis, Nov. 18.—[Special Telegram]—Evangelist Moody arrived here this morning. He says all that he needs is rest, and declares emphatically that he won't retire.

## MINNEAPOLIS IS WILD

Football the Talk of City Today—Badgers in Good Trim to Meet Minnesotians.

Minneapolis, Minn., Nov. 18.—Minneapolis is football mad over the Wisconsin game this afternoon. The conservative judges admit that there is small prospects of Minnesota's winning, except by some fluke, but the students and members of the team take a more optimistic view of the situation.

The Minnesota team will line up against Wisconsin practically as against Beloit a week ago.

Wisconsin's team arrived in Minneapolis late last night; the men were tired from their long ride, but all appeared to be feeling confident. They looked very fit. Phil King said, "I don't believe in telling fortunes, but we will tell fortunes tomorrow. In some respects the team is not up to its old standard, but we will do the best we can."

## Yale Men Feel Confident

## ASTRONOMERS ARE PUZZLED

Still Unable to Account for the Absence of Meteors

London, Nov. 18.—The non-appearance of the meteoric shower is now a mystery which is seriously worrying the astronomers all over Europe. The watch was continued at the Kensington Observatory all last night. Again there were no results, except one or two falling leonides, which might have fallen under ordinary circumstances.

Sir Norman Lockyer, however, has not yet abandoned hope of seeing a display. He says the leonides have been getting nearer to Jupiter and Saturn, and it is just possible these planets have affected their course to some extent and retarded their appearance in the neighborhood of the earth. He will keep his staff watching several nights longer.

A FORCEFUL ARGUMENT

Milwaukee is pretty well stirred up these days, over the controversy between certain people and certain newspapers and the street railway company. We do not undertake to pass upon the merits of the matter because no outsider can be expected to know about the wheels within wheels that generally buzz so noisily in such cases, but the arguments advanced by some of the company's critics remind one of the story told of a certain Janesville man, now deceased, who liked to "argue the point." He always took the opposite side of every question, and his chief stock in trade, when his opponent made a point, was the remark:

"That's a d—n lie! State your next proposition!"

Thirteen students at the state university have been suspended for participating in the recent disgraceful exhibition at Madison, and more will be compelled to follow them. It is well that the authorities have taken this step, for if the matter had been smoothed over, the whole university corps—students and professors alike—would have been compelled to suffer, in the eyes of the people, for the sins of the few guilty young men.

However, much as we admire General Funston, we cannot come to believe that he is wise in talking of bringing libel suits against either individuals or newspapers. The gallant general has received due recognition at the hands of both the people and the press and cannot have much confidence in his own standing if he fears because of the circulation of senseless stories.

The French government now owns a patent on a submarine boat. The French army has long been famous because of its effective under-ground methods, and now that the navy has facilities for submarine work, quick results can be expected in all future Dreyfus cases.

People of a scientific turn are hereby reminded of the fact that while the meteors are only seen at night, if at all, the pudamucks at the ostrich farm can be seen in daylight—provided, of course, that the proper arrangement are made with the owners of the farm.

Constant Reader—A bucketshop is a place where the country trader is made to answer the purpose of the hoop on the bucket—he keeps the pail from going to pieces, but is always "on the outside." Hence the name.

Never mind, gentlemen, the paving job is not, perhaps, as bad as it might be, and much the same thing will be said of future city officials, contractors, and others interested, long after we are all dead.

John R. McLean will retain his residence in Ohio until after the next presidential election. He will then remove to New York—having given up all hope of ever residing in the city of Washington, D. C.

Any man who has a few freight cars, or a locomotive or two that he cannot use, can learn something to his advantage by addressing the general manager of any railway in the United States.

One of the semi-occasional waves of indignation is now sweeping over the Chicago board of trade. Several firms are suspected of bucketshopping! Think of it!

Rock J. Flint is a candidate for United States Marshal for the Western district of Wisconsin, and has very strong endorsements in spite of his "hard name."

'Tis much better to "blow people up" with word of mouth, anyway. Dynamite is, really, quite too potent an argument to be considered reasonable.

Agualdo has taken to the woods, but as his Uncle Sammy owns the timber, Aggie will doubtless soon feel the sting of the switch.

The man who started that meteor

story, is being held strictly accountable by a sleepless people these frosty mornings.

Who wants to see a few cheap meteors, anyway, when Billy Mason's blush can be looked upon for the same money?

A NEW HUMORIST.

Bright Young Chicago Journalist Who Has Written a Unique Book.  
Nothing more curious or unique in the way of a book could be imagined than the "Fables in Slang," which is now in press. The author, Mr. George Ade, is a young Chicago journalist who has blazed out for himself a new path in the wilderness of letters. These fables may not be literature, but they are kin to it. Mr. Ade's slang is not the threadbare article of which the American youth is so fond. It is bright, new, sparkling metaphor. Chicago fairly revels in Mr. Ade's catch phrases and uses them constantly in conversation.

His work, light as it is in a way goes far deeper than the ordinary

GEORGE ADE.

journalistic sketch. It is derived from an intimate knowledge of men and things as they are affected by the streets of a busy city.

Mr. Ade was born in 1866 at Kentland, Ind., the son of the town banker. There he had an ordinary town boy's schooling, but he derived from it more than the ordinary boy can possibly acquire. Later he went through Purdue university, in Lafayette, Ind., and there he made the valuable acquaintance of Mr. John T. McCutcheon, with whom he has since been closely associated. After leaving college Mr. Ade's interest in journalism took him into the office of a country paper.

In 1890 he went with Mr. McCutcheon to Chicago, both of them securing employment on the Chicago Record, beginning at the bottom, but rapidly working up. Mr. Ade obtained an experience in reporting which has since been invaluable to him, and Mr. McCutcheon rapidly worked into the department of illustration, for which he was peculiarly well adapted. The two men were often sent on the same mission, the one to describe an episode in prose and the other in line, so that the friendship between them was cemented in the most trustworthy manner.

For at least five years Mr. Ade has been gradually developing his talent. The editors of The Record have given him a free hand by putting at his disposal two columns of space. This he has filled with delightful character sketches. Some of these have been collected and published in book form. Among these volumes are *Artie*, *Pink Marsh*, and *Doc Horrie*, all known to Chicago people as old friends. In his fables, however, he has attained to touches of wit which must give him a high place among American humorists.

Dwight L. Moody Stricken.

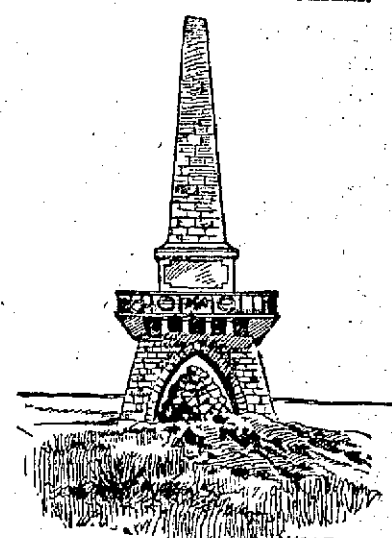

Kansas City, Mo., Nov. 18.—Dwight L. Moody, the evangelist, was stricken with heart trouble Friday and was compelled suddenly to abandon his preaching here. He is now on his way back to his home at Northfield, Mass., in the care of Dr. Schaeffer of this city and C. M. Vining, teller of the Union National bank. It is admitted that Mr. Moody's condition is critical, though when the evangelist was seen at his hotel shortly before being taken to the railway station he expressed the belief that his illness was not serious.

In Dutch the word "Boer" means farmer. The Boers are as expert riders as they are agriculturists.

In 1831, after the English rout at Majuba Hill, the Boers of the Transvaal proclaimed their independence at Paardekraal, the scene of the convention that led to peace with Great Britain, and erected an obelisk in honor of the event. The Boers are very proud of this national monument.

Victoria Grows Very Feeble.

London, Nov. 18.—There is great apprehension in court circles regarding the queen's health. Her strength seems to be gradually failing, and she is quite unable to conduct state business with the keenness and energy she displayed until quite recently. Her late visit to Bristol seems to have overtaxed her strength, and her weakness was pitifully noticeable on her return to Windsor.

TO MAKE GARLIC VINEGAR.—To make garlic or shallot vinegar pull your garlic any time between June and September, about August is the best time. Chop two or three ounces very fine and tie them in a muslin bag; suspend this in a well stoppered quart jar filled up with best vinegar with two ounces of salt dissolved in it. Put the stopper in tight and let the jar stand full a fortnight to three weeks, shaking it well every day except the last two days in order to allow any floating impurities to subside; then decant the clear liquid and strain or filter into small bottles; cork the bottles well. This garlic vinegar is very powerful and should be used most sparingly, with proper judgment. So subtle and penetrating is the flavor that a few drops of the essence will be found amply sufficient to impart to broths, gravies, soups, ragouts and salads that delicious suspicion of the presence of garlic which the French call *soubon* and which the least excess may spoil the most dainty dish. Mint, basil and herbal vinegars may be made in the same way.

Faded Carpets Redyed.

It may be news to some of the good housekeepers that where dyeing establishments are easily accessible carpets may be dyed, when faded and worn, just the same as many other things. This is often done, especially with hotel and apartment house floor coverings. Carpets are usually redyed in a solid color, what color will take best depending on the original hue. Through this fresh coloring the original design usually shows, not in colors, but outlined as a darker shade of the new color.

## RUNAWAY YOUTHS PLACED IN BASTILE

SHERIFF APPELBY MAKES  
ARREST LAST EVENING.

Four Brothead Boys, Whose Ages Range from Fourteen to Sixteen Years, Wanted to See Some of the World—Armed With Money and a Revolver—Parents Arrive in City.

Four ambitious youths from the quiet little city of Brothead were arrested in Janesville yesterday afternoon at 5:45 o'clock by Sheriff W. H. Appleby as they alighted from a freight train in the local Chicago, Milwaukee & St. Paul freight yards. They were a quartette of runaway boys tired of life in Brothead. They gave the following names when placed in jail: Willie Towne, Charlie Woster, Howard Gilbert and Albert Snell.

Yesterday afternoon Sheriff Appleby received a telephone message from the Brothead police stating that four small boys had suddenly left Brothead and that they were in all probability on a freight that was due to arrive in Janesville at 5:45. Sheriff Appleby went to the local freight yards and when the train arrived out stepped the juvenile quartette from a box car.

"Fall in line there and don't one of you walk one step faster than I do or you will be a fit subject for an undertaker," shouted the sheriff as he suddenly faced the frightened boys. After collecting the wits the oldest boy of sixteen years said: "Please sir, what does this all mean?"

"It means that you are all my prisoners. Now march along to jail and don't look to the right or left," said the sheriff with a wink to the bystanders as he withdrew his nickel plated revolver from his hip pocket and carefully examined it to see if every chamber was loaded.

With eyes filled with tears and legs that were so weak that they found hard work to navigate, this quartette of youths then sorrowfully wound their way towards the Rock county jail. When confronted by iron barred doors and windows the boys broke down and wept as if their hearts would break.

The prisoners were then searched. One boy had \$12 in money that he had secured in selling his bicycle. He also had a cheap revolver. Another youth had a tin box filled with a stamp collection. He said he intended to sell them. Another one of the boys had a dime novel and a package of cigarettes.

The oldest boy of sixteen was a fat youth of 150 pounds. He wore short trousers as did his companions. Acting as spokesman he said:

"We left home without the consent of our parents. I suppose that is why we are now in jail. But you would not blame us if you had to live in a town like Brothead. It's the next to residing in a cemetery. The daily excitement is about as great. We want to see some of the world. That's why we left. In our town the best they can do for excitement is to ring the fire bell once a month. Now and then there is a saloon fight. A cheap show occasionally comes to town. But what of all this. We want to see a few things in this world that we have been reading about and you can bet we are going to see them sooner or later."

At 9 o'clock last evening two of the boys' fathers arrived in Janesville on a freight and at once made their way to the jail. The boys then promised to return home and at midnight the outfit of runaways left in a three seated rig in charge of two displeased fathers. The boys are all connected with well known families and their escapade has caused no end of excitement in Brothead.

## GOVERNMENT CALLS FOR LAND ABSTRACT

INVOLVES PROPOSED POST  
OFFICE PROPERTY.

Solomon Juneau The Well Known Pioneer Resident of Milwaukee, Was Once Owner of the Property, Corner of Pleasant and Franklin Streets—Purchased This Land in 1836.

Register of Deeds O. D. Rowe has just completed an abstract of the property corner of Franklin and Pleasant streets which is the site alleged to have been selected by the United States government on which to erect the new federal building in Janesville. From Washington's request has been received asking for a full abstract of the property from the time it passed out of the hands of the government.

The abstract will be forwarded to Washington where it will take some time for the proper officials to thoroughly investigate. It is a lengthy paper and covers several closely written pages. The lots involved are 77 and 79 of Smith, Bailey & Stone's addition to the city of Janesville. This property passed from the hands of the government to Morgan L. Martin, a pioneer settler of Janesville. This property passed from the hands of the government to Morgan L. Martin, a pioneer settler of Rock county.

On April 20, 1836, Solomon Juneau of Milwaukee, purchased an undivided fourth interest in these two lots along with much other property. In 1838, Juneau then sold the property back to Martin. Since that time the land has changed hands several times. Not until this abstract is carefully examined in Washington and a deed made out and recorded will the property pass into possession of the government.

WATER WORKS CASE

BEFORE THE COURT

JUDGE DUNWIDDIE HEARS

ACTION FROM MONROE.

Considerable Money Involved—Water Company Suing to Recover Tax Money Paid in 1893 on a \$30,000 Tax Valuation—Mayor Douglas Attends Trial.

Before Judge B. F. Dunwiddie of the Rock county circuit court this morning was heard the action of the Monroe Water Company vs. the City of Monroe.

In 1893 the assessors at Monroe assessed on a \$30,000 valuation which they claimed was the value of property owned by the Monroe Water company.

On this value the board of taxation fixed a \$600 city tax, which the water company paid.

Now the water company brings suit for the recovery of \$535.05 of this sum which they allege is unjust taxation under the clause of the Monroe city franchise.

The arguments were made today.

## VICIOUS CANINES KILL SEVEN SHEEP

ANIMALS FOUND DEAD ON THE I. C. SLOAN PLACE.

Were Blooded and Were Worth Seventy Dollars—Not Many Months Ago Several Sheep Were Found Dead On This Same Farm—Dogs Escape Without Being Detected.

Vicious dogs killed seven valuable blooded sheep this week on the I. C. Sloan farm on Racine street. The dogs made good their escape without even being seen.

Who the dogs belong to is not known but watchers are now on the lookout armed with shot guns in the hopes that these brutes will return in the hopes of continuing their bloody work. The dead sheep were killed in the pasture and the majority of them were found along the fences where they had crouched in their mad efforts to keep the dogs off. In every instance the brutes left tearing the flesh from the throats left the sheep to die. If there is any domestic animal that has but little show of warding off an enemy it is sheep. They easily surrender when attacked.

Dogs that will kill sheep should be put to death and the sooner the better. Several months ago several dogs were found dead on the Sloan farm. They were either poisoned or killed.

## LATE NEWS BY TELEGRAPH.

## BULLER'S PLAN OF CAMPAIGN

Relief of Kimberley and Ladysmith  
His First Object.

## ADVANCE IS ALREADY BEGUN.

Confidence of Army Officers in Armored  
Trains Is Rudely Shaken by Thursday's  
Disaster—Two Thousand Boers Are  
Massed at Ennerdale.

London, Nov. 18.—The British plan of campaign on the western side, as it is understood here, is to have one column advance along the railway upon Kimberley in expectation of driving back the Boers and effecting the relief of the town, while a second column covers its flank, operating in the direction of Bloemfontein. After the relief of Ladysmith the movement is looked upon here as only a matter of Gen. Buller leading his troops in a third column, formed of troops brought back from Natal. This will then co-operate with the movement on Bloemfontein. It is intimated at the war office that the advance on Kimberley is already begun.

Reports indicate heavy fighting at Ladysmith and the Boers seem to have brought from Pretoria and Johannesburg several more heavy guns, making the bombardment much stronger. The government, however, is carefully guarding all news from this point, so the real situation will be unknown for some time to come.

The Daily News' Pietermaritzburg dispatch says that it is generally agreed that armored trains are useless against the Boers and will probably be abandoned. The British losses in the armored train fight near Estcourt in wounded and missing include Capt. Haldane and Wylie and sixty-nine men, who were all sent to Pretoria.

Estcourt, Nov. 18.—The Elmslo Boer forces have taken up a position near Ennerdale, a few miles north of here. They have eight seven-pounders and two French guns. Their strength is 2,000 men. They have looted Henderson's store.

All is quiet here and ready for the enemy if it attacks. There is no anxiety.

Hints at Peace Measures.

The Hague, Nov. 18.—In the second chamber of the states general of the Netherlands today the minister of foreign affairs, Dr. W. H. de Beaufort, said:

"The government infinitely regrets the sanguinary war in South Africa and will always be found willing to take advantage of all means which may conduce to its termination. This goal will be not unknown to the combatants. Nevertheless, the government does not think it desirable now to make public the steps that have been taken or may be taken in the future. The British government has declared that it does not desire the intervention of foreign powers, and all powers have hitherto abstained."

British Forces Swelled.

London, Nov. 18.—It is officially announced that the British transports Malta, Arcana, City of Vienna and City of Cambridge have arrived at Cape Town. These arrivals bring up the re-enforcements to 23,500, of which 7,290 have already disembarked at Durban, with eighteen field guns, a number of machine guns, engineers and hospital troops, as well as 700 mules. This force, with that already between Estcourt and Durban, is considered sufficient to enable Gen. Hildyard to advance and to take the aggressive against the Boers south of Ladysmith.

Burgers Lack Food.

Pietermaritzburg, Nov. 18.—Under cover of darkness the Boers on Thursday placed their men close to Ladysmith, and after a heavy bombardment attempted an assault on the town. They were repulsed at every point, sustaining considerable loss. The natives report that the enemy have drawn a complete cordon around Ladysmith, and ingress is now most difficult. Our troops are cheerful and there is but little sickness. The Boers are in great straits for want of food. The Free Staters have become almost mutinous.

British May Again Move Back.

London, Nov. 18.—The absence of news of any serious movement against Ladysmith seems to show that the Boers are repeating the strategy adopted by them at Dundee, when they appeared in front and endeavored to effect a surrounding movement. This seems to have been their object regarding Estcourt, and since it is impossible that relief should reach there for some days to come, it is not un-

likely that a further retiring movement on Mool river will be made.

Road to Kimberley Clear.

Cape Town, Nov. 18.—An undated dispatch from De Aar, Cape Colony, says that a strong British force left there for Kimberley on Nov. 10. When within fifty miles of the beleaguered town the relief column encountered a considerable body of the enemy. The Boers were routed after a smart brush, leaving the road clear to Kimberley, which may now the dispatch concludes, be relieved at any moment.

Boers Marching Through Zululand.

London, Nov. 18.—The Standard and Diggers' News announces that 6,000 Boers are marching through Zululand. It also says that a deserter from Ladysmith reports great anxiety among the troops to escape, and that the provision stores are loaded on wagons ready for the flight of the British.

Capture Boer Munitions.

Cape Town, Nov. 18.—It is reported from Colesburg that a quantity of guns and ammunition belonging to the Orange Free State and destined for Richmond have been captured by the British.

Basutos to Join Boers.

London, Nov. 18.—Advices from Maseru, Basutoland, dated Wednesday, Nov. 8, say that Chief Joel, terrorized by false Boer assertions that the British have been beaten in every engagement and are being driven out of South Africa, is preparing to join the Boers, believing theirs the winning side. The Boers are said to have supplied him with guns, which they have accompanied with specious promises.

On Secret Mission.

Lourenzo Marques, Nov. 18.—Secret service agents are continually arriving here from the Transvaal. A member of the Orange Free State legislature arrived last night from Pretoria. It is believed he is proceeding to Cape Town on a mission, the object of which is unknown.

Boers Buying Supplies.

London, Nov. 18.—A dispatch from Lourenzo Marques to the Times states that the Boers are buying all the food obtainable. They are said to be raiding outlander property in Swaziland and the border mines.

Boers Have 1,338 Captives.

Durban, Nov. 18.—A statement in the Standard and Diggers' News is to the effect that there are 1,338 British prisoners of all ranks at Pretoria.

CRISIS IS ON IN KENTUCKY.

Goebel Men Want Votes Thrown Out—

Expect Riots in Louisville.

Louisville, Ky., Nov. 18.—The crisis has been reached here and word comes from Frankfort that Gov. Bradley has called his colonels together in order to have the militia in readiness to quell expected rioting in Louisville.

Judge Harges and Col. Bennett H.

Young, for Goebel, Friday made a motion during the official counting of the vote of Jefferson county (Louisville) to throw out the entire vote on account of the fact that the militia was called out on election day. This motion, if sustained, will disfranchise 42,000 voters in Louisville and will count out Taylor's plurality of 2,625 in the city and county, giving the election to Goebel by 1,600 plurality. With Louisville in, Taylor would have a plurality in the entire state of 1,700.

The motion is in five sections, and after making a plea that the election here be declared null and void, it states that Gov. Bradley was guilty of usurpation in calling out the soldiers, and by overawing and intimidating the voters, interfered with the progress of the election. It also declares that Judge S. B. Toney exceeded his authority in requesting the governor to call out the troops, and that the action was entirely unnecessary, as the civil authorities were able to execute any orders issued.

The commissioners will not take action on the motion until the count is completed, and ex-Congressman Caruth, who is a member of the board, has been warned to have a "Canada special" ready before he attempts to vote in favor of the action. The situation is regarded as more serious than it has ever been.

Yellow Fever on the Wane.

Jacksonville, Fla., Nov. 18.—The yellow-fever epidemic at Key West, Port Tampa City and Miami are now so completely under control that no more official reports will be sent out by the state board of health. No deaths have occurred for several days, and the few new cases are of so mild a nature that the health authorities say there is no danger of its spreading. Quarantine will be kept up till the last-vestige of the fever leaves.

Will Always Retain Samoa.

Kiel, Nov. 18.—The emperor, addressing recruits here, and alluding to the loss of the German and American warships off Samoa in 1889, said: "This land is now ours and will remain ours so long as there is a German empire, and as the German eagle gradually spreads itself there will be a fleet destined to protect our brothers abroad."

Fight Virtually Arranged.

New York, Nov. 18.—Champion Jeffries and James J. Corbett were virtually matched Friday to fight twenty-five rounds for the heavy-weight championship of the world. The articles will be signed next Tuesday, when the date will be selected.

## WEEKLY REVIEW OF TRADE.

Remarkable Strength of Prices  
Still Maintained.

## SOME SHRINKAGE IN DEMAND.

Iron and Steel Products Are Not So  
Sincerely Sought For as a Few Weeks  
Ago—Wheat and Corn Shipments—  
Failures for the Week.

New York, Nov. 18.—R. G. Dun & Co.'s weekly review of trade says:

"The signs of shrinkage in the new demand for iron and steel products become more clear, and while prices of pig are maintained without change and billets are quoted lower only because premiums for earlier deliveries are no longer paid, plates are quoted lower at the east, with some small mills selling at 2.5 cents at Pittsburgh, and sheets are sold by some works there at \$5 to \$4 less than the regular price. Shipments of boots and shoes fall off, and yet are larger than in any previous year. Textile manufactures are doing well, although in woollens the speculation in material threatens to cause some embarrassment. Worsted goods are in good demand and have been advanced in price with some flannels. Failures for the week were 219 in the United States, against 223 last year, and 20 in Canada, against 26 last year."

Bradstreet's says:

"General trade and industry continue at a maximum volume for this season of the year, while prices as a whole manifest a strength unapproached in recent years. Strength in values is still most notable among manufactured textiles, but cereals, hides, leather and manufactures thereof have also strengthened slightly. On the other hand, pork products, raw cotton and tin are slightly lower. The great majority of prices, however, remain firm at unchanged quotations. Wheat, including flour, shipments for the week aggregated 4,540,007 bushels, against 4,650,842 bushels last week. Corn exports for the week aggregated 4,603,718 bushels, against 4,581,447 bushels last week."

"SOUND-MONEY" BILL TO PASS

Financial Measure Likely to Be Adopted

by the Next Congress.

Washington, Nov. 18.—President H. H. Hanna of the Indianapolis "sound-money" commission, who is in Washington in the interests of the financial bill drawn by the house republican caucus committee, said he felt confident the measure, or one on similar lines, would be passed by both branches of congress at the coming session. He looks for early action in the house and thinks little change will be made by the senate.

The senate finance sub-committee

has not finished consideration of the caucus bill, but it is thought a meeting will be held before the assembling of congress, though final action may be postponed until the vacancies of the finance committee are filled.

Plague Danger Almost Gone.

Alexandria, Egypt, Nov. 18.—The bubonic plague has completely died out here. Only a single case was reported a week ago, which was the only one in three weeks, and that was of mild form. There have been no deaths in over a month and at no time has the plague been in Cairo.

TESTS PATIENCE.

The Most Patient Janesville

Citizen Must Show An-

noyance at Times.

Nothing spoils a good disposition. Nothing taxes a man's patience. Like any itchiness of the skin. Itching Piles almost drive you crazy. All day it makes you miserable. All night it keeps you awake. Itch! Itch! Itch! with no relief. Just the same with Eczema. Can hardly keep from scratching it. You would do so but you know it makes it worse. Such miseries are daily decreasing. People are learning they can be cured. Learning the merit of Doan's Ointment. Plenty of Proof that Doan's Ointment will cure Piles, Eczema or any Itchiness of the skin. Read the testimony of a Janesville citizen.

Mr. L. Lawrence, of 408 S. Franklin St., engineer at the Janesville Electric Light Co., says: "I tried about everything recommended for itchiness of the skin, but found nothing to give me relief until I struck Doan's Ointment at the People's drug store. I had an affection of the skin on my face caused from the burning oil about the engine and dynamo. My face itched and annoyed me, and rubbing it only made it worse and made it sore. I could hardly stand shaving, for the skin broke and bled. A few applications of Doan's Ointment removed the itchiness and healed up my face in a few days. I would not be without this remedy in my house, and I certainly recommend it to others in need of such a preparation."

Doan's Ointment is sold for 50 cents per box by all dealers. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

## The Price of a Suit

Of clothes is not always the true expression of its worth. It is equally true that a really good suit of clothes cannot be sold for less than a certain sum. If you pay less you get less, and when you get down to a certain point what you get is worth nothing and your money might as well be thrown in the street.

The price range is adapted to every purse, and each price represents just what twice the amount would buy of made to measure clothes. In buying these garments you get sterling value for your money, and the price is held down just as low as good clothes can be made for. If you seek to save a few dollars by cheaper garments, you get worthless ones and all is wasted. We know this so perfectly well that without hesitation we say that we will give you back your money if you are dissatisfied.

# Carload of Fancy New York Apples

We have just unloaded a car of choice varieties of hard winter Apples, grown in Tompkins County, New York. These Apples are the best keeping stock that have been brought to Janesville this season. Of all the fine varieties of Apples grown in this country, the "King of Tompkins County" is the most popular and commands the highest price. This Apple has won for Tompkins County, N. Y., the reputation of being the most famous Apple growing district in the United States. We have a good supply of this celebrated "King" Apple, which we will sell by the barrel at lower prices than they can be bought for at wholesale in Chicago.

This market heretofore has been so flooded with early picked, wormy Apples of poor keeping qualities, shipped in from Michigan, that many people have become discouraged from buying Apples by the barrel. We feel confident that an inspection of our stock will convince them that we have the quality of fruit they have been looking for.
